PureAV™ Digital Solutions by Belkin

3-1 Automatic Scart Switcher

Connect multiple video sources to your television

This PureAV Automatic Scart Switcher allows you to connect multiple video sources, such as DVD, Video recorder and Satellite to a single scart connection. The 3 scart inputs are controlled by 2 electronic switches.

Features

- Expand your home theatre or add S-Video capability
- No signal loss – video amplifier circuit
- Not suitable for RGB
- LEDs to indicate function
- Power Supply: 12vDC
- Whichever input is in 'Operating' mode will be automatically switched to the output socket
- If more than 1 input is in operation, the following priority system operates:

  1st priority is Input 3

  2nd priority is Input 2

  3rd priority is Input 1
- Devices must be switched off to enable switch over

Benefits

- Auto selection of attached devices
- Easy management of your Home Cinema devices
- High quality audio and video signal
